Module 1 Introduction

The purpose of this study is to review principles, practices and theories of skin health and facial services.

Module 1 Summary

The cosmetic industry has a large selection of professional products for the Esthetician to choose from. The professional Esthetician will make her choices from these products in order to best serve the client's needs. The combination of knowing anatomy of the skin and recognizing skin conditions is irreplaceable in choosing the products used when performing a professional facial service. Results are strongly based on these factors. We now turn our attention to sanitation and sterilization.

Module 2 Summary

By professionally applying employment principles, practices and theories, the salon professional will have the best chance to get the job. Applying what you have learned about getting the job, can greatly improve your chances among other employment candidates.

Course Conclusion

In this course, we focused on many topics of the principles, practices and theories pertinent to being a licensed professional. We have discussed the professional facial service. We have also discussed the importance of gainful employment. This knowledge is a necessary base for a solid foundation in the success of a professional career in the beauty industry. We applaud your continued interest in learning and your motivation to keep your professional license in good standing with the State Board. We invite you to participate in our course next renewal cycle. Thank you and congratulations on completing this continuing education course.
